## **PERSONAL STATEMENT**

Here you should take a few lines, not a few paragraphs (save that for the cover letter) to quickly outline your interest in the role and why you'd be a good fit. Do not list out your skills here as they will be more relevant to employers searching for your CV within a job role listed under "**WORK EXPERIENCE**".

The aim is to highlight your professional attributes and goals, summarising why someone should consider your application. [Find out how to write the perfect personal statement.](#)

## **WORK EXPERIENCE**

**Job Title – Dates of Employment** (date format should be Month YYYY e.g. November 2011 – May 2012)

Company Name - [www.examplelink.co.uk](http://www.examplelink.co.uk)

Location

It is very important to include your **dates of employment** regardless of whether you are still in the job you have listed. This is because Monster's CV Search will use these dates as well as the skills obtained/utilised in this time period to determine if you're what an employer is looking for.

Responsibilities:

- Provide key achievements within a role and try to highlight the skills used to obtain your goal
- Try to avoid soft terms like "high energy" and aim for skills used within the role – such as "**programming using C++**"
- Provide enough information to entice your potential employers to call you
- Always keep examples relevant to the role you are applying for

**Job Title – Dates of Employment**

Company Name - [www.examplelink.co.uk](http://www.examplelink.co.uk)

Location

For older jobs you should keep the details slightly shorter, remembering to include your dates of employment and key skills obtained/applied to achieve your goals.

Responsibilities:

- Try to [avoid cliché phrases](#) that don't differentiate you as a candidate
- Always [tailor your CV](#) for each job application to match the requirements
- Try not to waffle if you feel like you don't have much to write in this area. Succinct to the point CVs will be preferred as they are quick to read and won't be generic

## **EDUCATION**

If you are looking for your first job and do not have much or any work experience at this point – do not fret. Expand on your education responsibilities and apply them to real life scenarios so an employer has an understanding of what you have achieved and the means used to get these achievements.
